

# Announcing Web-based Safe-ari™ Guide Training

## It's a new world.

### Objective:

- Create the classroom experience via the web;
- Maintain the same level of student interaction;
- Make it easy and accessible to launch Guides into *their* Savannah.

### Management Strategy Meeting

#### **Purpose:**

To appreciate the potential of Safe-ari™ in a way that examines safety paradigms so that a Safe-ari™ strategy can be developed.

#### **Products:**

1. Informed decision
2. Management alignment
3. Perspective
4. Possible vision for the running of the business

Two, 1-hour sessions \$500 total

Cell phone, tablet, PC or Mac, if you can connect to the web you are ready to learn. Live, interactive training and development delivered without the expense and hassle of centralized classroom training. Maximize learning opportunities by meeting people where they are. By moving to the web, shorter modules with "homework" are no longer constrained by the expense of on-sight instructors. Schedule conflicts? No problem; live webinars are recorded for ease of make-up.

### Safe-ari™ General Session

The Safe-ari™ General Session is designed to give people an introduction to learning situational awareness skills from the experts in the Savannah. Participants go on the "orientation" tour where fourteen key learning points are explored at each "stop." Equipped with the souvenir tour map, lessons are written down for future discussion. Typically done in person, in large group settings, this session is smaller in size to ensure appropriate interaction and group discussion time.

2 hours  
\$49.95/person

### Safe-ari™ Associate Guide Training

#### **Purpose:**

To equip you with enough skills to be an Associate Safe-ari™ Guide in a way that the ultimate vision of what's possible is understood so that our efforts contribute to building stronger businesses.
